and security issues.

Plugin security is important to us. Here's what we do:

- Initial code review**  
Plugins undergo an initial code review by our team before they appear in the store.
- Open source**  
Most plugins are open source on GitHub, so you can inspect the code yourself.
- Peer audit**  
We have a large community of developers who watch out for each other.
- Report mechanism**  
We follow up and remove faulty plugins upon user report.

Would you like to exit Restricted Mode to enable community plugins? We strongly recommend making backups of your data before doing so.

### Obsidian Style Settings Plugin

This plugin allows snippet, theme, and plugin CSS files to define a set of configuration options. It then allows users to see all the tweakable settings in one settings pane. Style Settings allows both toggling classes on and off the `body` element, as well as setting numeric, string, and color CSS variables.

**This CSS Snippet can be used to adjust every CSS variable of the default Obsidian theme.**

## 1. Markdown语法总结

在Obsidian中，每个笔记文件只是一个Markdown文件。正如你在Github/JupyterNotebook中经常看到的一样。Markdown是一种非常简便的文本编辑语法。Obsidian在核心基础上对Markdown语法进行了适当的拓展。下面，我们来复习一下Obsidian中的Markdown内容吧！

### 1. 在Markdown中提供了6个级别的标题

- 注意：标题#符号与文本间应该有一个空格

- 一级标题
- 二级标题
- 三级标题
- 四级标题
- 五级标题
- 六级标题

### 2. Obsidian中使用的是拓展的Markdown语法，可以轻松完成一下字体变换。字体如下：

- 双等号表示高光(**highlight**)
- 双波浪符号表示横线划去内容
- 单星号表示斜体(*italic*)
- 双星号表示加重(**bold**)
- 加重+斜体(**bold+italic**)
- 高光+斜体(**highlight + italic**)

3. 除了有序/无序列表，还拓展了选项功能 (- [ ])

This image shows a screenshot of a digital note-taking application interface, likely Obsidian, with a dark theme.

The top navigation bar includes icons for file operations (New, Open, Save, Find, Copy, Paste) and search.

The title bar says "Daily Notes".

The left sidebar displays a tree view of the project structure:

- TUTORIAL
  - > daily\_notes
- template
  - Daily Notes (selected)
- 0.目录

The main content area shows a note titled "快捷键调整列表顺序" (Adjusting the list order with keyboard shortcuts), which is highlighted with a red box.

The note content is organized into sections:

- 任务**
  - 项目1
    - 任务1-2
    - 任务1-1
    - 任务1-3
  - 项目2
    - 任务1-1
    - 任务1-2
- 事件**
  - 开会
  - 买菜
  - 检查
  - 吃药
- 想法/随笔**
  - 点子1
  - 点子2

A red box also highlights the section title "任务" and the item "项目2" under the "任务" section.

The right side features a calendar for May 2023, showing days from 30 to 10. The current date, May 15, is highlighted with a blue background and labeled "15".

At the bottom, there are statistics: 0 backlinks, 56 words, and 111 characters.
